

DEFINING A NEW CATEGORY OF FAMILY VEHICLE

 **Roadtrek**™

THE 2012

N6 Active

INCOMPARABLE INTREPID INNOVATIVE

WHAT DROVE US TO CREATE A CATEGORY DEFYING VEHICLE?

Recognizing a need and using our decades of experience and innovation to meet it.

If it looks like no other SUV, RV or minivan, that's because until now, there's never been anything like it. Our purpose, our mission, was to build true utility into the N6-Active to support you and your busy lifestyle.

Our consideration was not just the vehicle, but what you do with it. At every point through the design process we thought about you, your journey AND your destination.

A GAME CHANGER

An SUV with a refrigerator, sink, microwave and shower. A minivan that can easily tow 9000 lbs. An SUV that gets up to 18 MPG. A people hauler that you wouldn't be embarrassed to drive. An RV you can drive everyday. These are just a few of the features of the N6-Active.

A PLACE TO "CHILL OUT"

You're everywhere – the beach, kid's soccer tournament, secret fishing spot or football game. Use your N6-Active as home base. Get out of the heat, get out of the rain or get out of the cold. Make lunch, watch a movie, play Xbox™, charge your iPad™ or bunk up – you can do it all!

GROUPS TRAVEL IN THE LAP OF LUXURY.

With more room than an SUV or minivan, the N6-Active has more than enough room for 7 people. There is luxurious seating in all three rows. Everyone has loads of legroom, elbow room and headroom. The N6-Active's unique feature is that the 3rd row is actually comfortable for two adults or three children. You don't have to be a Cirque du Soleil® acrobat to make it into the 3rd row of seats!

You'll have more flexibility to eat, watch videos, play games or just relax. When you're not driving, the N6-Active's four captain seats swivel to surround an expandable table that can be set up in the vehicle's different zones to fit your needs.

Roadtrek N6 Active

N6 Active

Roadtrek N6 Active

ABILITY ADVENTURE ADRENALINE

RUGGED ENOUGH TO TOW ALMOST ANYTHING

Perhaps the N6-Active's greatest ability is to enhance the activities that you already participate in (or aspire to do). With 9000 lbs. of brute force towing capacity,

the N6-Active can pull almost anything you have (or want). Imagine having a shower right after you finished riding your ATV. Picture yourself staying

A STAND-UP EXPERIENCE

You arrive at your destination, pop up the roof to allow full standing height inside the vehicle. Walk upright. No more head banging, no more bent over, back-breaking "hunching" like Quasimodo.

overnight at your favourite fishing hole. We set out to build the ultimate hauler and succeeded. There's nothing like it.

N6 Active

A VIEW WITH A ROOM

A massive amount of window area means you and your passengers don't miss a thing when you are underway - or already there.

Our spacious interior offers more legroom, elbow room and headroom than the largest SUVs. The N6-Active has loads of storage space for your things. The versatile center console can be easily removed for extra space between the front seats or easier access from the front seats to the rear.

LIVING ARRANGEMENT

SLEEPING ARRANGEMENT UPPER

SLEEPING ARRANGEMENT LOWER

SLEEP EASY

The N6-Active's ingenious design means there's room to sleep up to five.

We know how hard it is to find a quiet, private space when you're on the go. Wouldn't it be amazing to always have a comfortable bed for you or your young children to nap - wherever you happen to be? The 3rd row seat reclines to a full-length double bed. The pop up roof allows sleeping for another two adults or kids. Sleep a fifth across the two front seats on our optional folding mattress.

Want that great tailgating spot at the stadium? Want to hit the trails early? Get there early - that day or the night before. Or rest up and head home later when traffic is lighter. Stay overnight anytime to stretch out that perfect day. Sleep on your own linens in your own bed instead of dirty or overpriced motels. Be safer. Avoid the exhausting drive home after a great day by staying overnight and driving home in the morning, refreshed - and with less traffic.

N6 Active

KEEPING IT CLEAN

Spills are going to happen, it's a universal law. Would you rather have a permanent stain from your spilled venti latté or simply wipe it up and carry on?

The N6-Active's easy to clean seats are covered with simulated leather. They're also cooler in the summer and warmer in the winter than real leather. Most of the other interior surfaces are soft-touch vinyl or plastic for easy cleaning and durability. The front cab has a rubber floor and the rest of the cabin has an attractive wood grain vinyl floor. This makes it easy to clean spills and dirt. For a little luxury, fitted carpet mats can be snapped in.

MEALS ON WHEELS

The N6-Active lets you eat and drink on the go – anywhere – anytime – on your terms! Its built-in kitchenette includes a large refrigerated cooler, sink, hot and cold running water, microwave oven and cupboards.

Just think of the convenience. When you're on the road and it's time to stop for a bite, you don't have to rely on fast food. The N6-Active helps you save money and supports a healthy lifestyle!

Skip the drive through and find a nice spot to enjoy items you picked up at a grocery store. Swivel the seats around and set up the expandable table or eat outside on a nearby picnic table. Grab your drinks and food from the fridge and cupboards then prepare them on the counter. If you want hot food, heat it up in the microwave or pull out a portable stove or barbeque. Use the hot and cold water and sink to wash hands, take care of spills and clean up after eating. At night, pop up a bag of popcorn and watch a movie on your flat-screen display. Try all of that in your current vehicle!

WASH AND GO

Just inside the rear doors is an external use hand-held shower head with hose. It's handy for many things such as washing off caked on mud, dirty shoes, muddy paws, cleaning fish or even washing off sand and salt at the beach. You will appreciate this feature because it ultimately extends the life of the interior of your N6-Active.

N6 Active

SAVE YOUR RELATIONSHIP

You won't have to ask for directions - ever.

Nissan's in-dash touch-screen navigation center (U.S. only) shows you where you're going and tells you how to get there. Avoid traffic jams with available real-time traffic updates.

STAY CONNECTED - SAFELY

The N6-Active's standard Bluetooth® hands-free phone system connectivity lets you connect your Bluetooth® enabled communication device - so you can talk while keeping your hands on the wheel (and avoid a ticket in many states).

ENTERTAIN YOURSELF

The AV set up in the N6-Active gives new meaning to this phrase! Enjoy Nissan's easy to use premium in-dash touch-screen audio control center (U.S. only).

The steering wheel mounted thumb controls help keep your attention on the road while you shuffle through your favorite road trip mix. Safely control XM Satellite Radio™ (U.S. only) and make use of the USB input for your iPod™.

Connect a large tablet or monitor to your Xbox™ or PlayStation™ and you can watch a movie or play video games together. If it's peace and quiet (or sanity) that you seek, you'll appreciate the power supplies and mounting brackets for the 1st and 2nd row seat backs. Simply clip each person's iPad™ or other tablet into the bracket, plug it in and enjoy hours of silence while your passengers listen to their own music, watch their own movies or play Angry Birds™.

N6 Active

TECHNICAL HIGHLIGHTS

ENGINE:

Continuously Variable Valve Timing Control System (CVTCS) to improve fuel efficiency and optimize engine performance for all driving conditions.

BRAKES:

Large, heavy-duty brakes for confident stopping power.

TRANSMISSION:

- 5-speed automatic
- Wide-range gear ratios for improved acceleration and fuel efficiency
- In-tank transmission and external air coolers to keep gears from seizing
- Low-maintenance design

FRAME:

Full-length, fully-boxed ladder frame for added strength and durability.

VEHICLE DYNAMICS CONTROL (VDC) AND TRACTION CONTROL:

The NV comes standard with Vehicle Dynamics Control (VDC) and Traction Control to help maintain control of your vehicle in driving conditions when a loss of control or traction occurs.

AIR BAGS:

In addition to dual stage front air bags for driver and front passenger, there are driver and passenger seat-mounted side-impact supplemental air bags and roof-mounted curtain supplemental air bags for side impact and rollover head protection. Front 3-point seat belts are height-adjustable with pre-tensioners and load limiters.

STANDARD AUTOMOTIVE FEATURES

N6-Active on 2012 Nissan NV 2500 Van

Air bag - driver & passenger	frontal, seat-mounted side impact, roof-mounted curtain side-impact

Water tank - grey	19 L/5 US gal.
Windows	awning

MOTORHOME OPTIONS

Mattress - folding	for across front seats
Screen package	for rear door opening

EXTERIOR DIMENSIONS & WEIGHTS

Length	6110 mm/20' 1"
Height - overall	2388 mm/7' 10"
Width - overall (w/o mirrors)	2030 mm/6' 8"
Wheel base	3710 mm/146"
Unloaded vehicle weight (2)	3100 Kg/6800 lbs.
Gross vehicle weight rating	4128 Kg/9100 lbs.
Gross combined weight rating - std. (3)	7258 Kg/16000 lbs.
Gross combined weight rating - opt. (3)	not applicable
Towing - tow weight - std. engine (4)	4100 Kg/9000 lbs.
Towing - tow weight - opt. engine (4)	not available
Towing - tongue weight (5)	431 Kg/950 lbs.

(2) Includes weight of base vehicle, fuel and propane only. Does not include weight of optional equipment, water, cargo and/or passengers.

(3) GCWR includes total weight of vehicle, trailer, equipment, fuel, water, propane, cargo, driver and passengers.

(4) Maximum towable weight with driver only. This weight reduced by weight of optional equipment, fuel, water, propane, cargo and/or passengers.

(5) A weight distributing hitch is required for tongue weights over 200 Kg/400 lbs.

INTERIOR DIMENSIONS

Standing height	1580 mm/62" w/roof closed, 1930 mm/76" w/roof open
Lower double bed length	1880 mm/74"
Lower double bed width	1195 mm/47"
Upper double bed length	1880 mm/74"
Upper double bed width	1420 mm/56"
Front folding mattress length	1520 mm/60"
Front folding mattress width	610 mm/24"

N6 Active

WARRANTIES AND OTHER INFORMATION

TAX ADVANTAGE

Because the N6-Active meets the definition of an RV, the interest incurred to finance its purchase can be tax deductible as a second residence. As a result, the after-tax cost of ownership is less than comparably priced vehicles.

COMPANY

Roadtrek Motorhomes Inc. was established in 1974 and manufactures the number one selling class B motorhomes (camper vans) in North America (since 1990). For information on our commitment to safety, quality and YOU, please visit roadtrek.com/LIT.

IMPORTANT: As we are always working to improve our product, specifications and design are subject to change without notice or obligation whatsoever. Roadtrek Motorhomes Inc. shall not be held responsible for errors or omissions contained herein or the delivery or non-delivery of any item herein.

The drawings, photographs, literature and technical information contained herein are the exclusive property of Roadtrek Motorhomes Inc. The above may not be duplicated, re-produced, used nor conveyed to others without our express written consent.

WARRANTIES

NISSAN: 3 year/36,000 mile or 60,000 km limited basic warranty and 5 year/60,000 mile or 100,000 km limited powertrain warranty. See Nissan website or dealers for details.

MOTORHOME: 4 year/48,000 miles or 80,000 km limited warranty is offered by Roadtrek covering the manufacture of the motorhome only (does not include the chassis).

APPLIANCES: Those offered on the individual appliances by their respective manufacturers.

ENVIRONMENT

Roadtrek Motorhomes has earned the Gold level of Green Certification from TR Arnold & Associates. The certification process includes waste reduction and disposal methods, indoor and exhausted air-quality, resource efficiency, energy efficiency, water efficiency, maintenance, innovative practices and use of recycled materials during the manufacturing process.
